

Communication

Date	10 July 2026
Team ID	
Project Name	Credit Card Approval Prediction System
Maximum Marks	1 Mark

Communication Plan:

Effective communication played an important role in the successful development of the **Credit Card Approval Prediction System**. The team regularly communicated with mentors, project guides, and team members to discuss project progress, solve technical issues, review milestones, and prepare for the final project demonstration. Communication was carried out using both online and offline channels to ensure smooth project execution.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Microsoft Teams / Google Meet	Team Members	Discuss daily tasks and project progress
2	Progress Update	Weekly	Google Meet / WhatsApp	Team Members & Mentor	Review completed work and assign new tasks
3	Issue / Bug Discussion	As Needed	Visual Studio Code Live Share / WhatsApp	Team Members	Resolve coding errors and debugging issues
4	Stakeholder Review	Bi-Weekly	IBM SkillsBuild / SmartBridge Meetings	Mentor & Team Members	Review project milestones and receive feedback
5	Final Demo Rehearsal	Once	Google Meet / Microsoft Teams	Entire Team	Practice the final project demonstration
6	Project Submission Discussion	Once	Email / GitHub	Team Members & Mentor	Verify project files, documentation, and submission

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Dependency installation errors during environment setup	Created a virtual environment and installed all required packages using requirements.txt .
2	Model prediction accuracy was initially low	Performed data preprocessing, feature engineering, and selected XGBoost as the final model.
3	Deployment and GitHub integration issues	Resolved Git configuration errors, uploaded the project successfully, and deployed the Flask application for testing.
