Project Name	Credit Card Approval Prediction System
Maximum Marks	4 Marks

Empathy Map

SAYS • I need to process many credit card applications every day. • I want faster and more accurate approval decisions. • I need a reliable prediction system.	THINKS • Manual verification takes too much time. • The prediction should be accurate. • Machine learning can improve decisions.
DOES • Reviews applicant information. • Checks credit history. • Predicts approval or rejection.	FEELS • Confident with accurate predictions. • Less stressed due to reduced manual work. • Happy with faster decision-making.
